Check all that apply below:

- ☐ New construction
- ☐ Existing Home
- ☐ Single Family
- ☐ Multifamily (4 or fewer units per building)

Additional Requirements: (Please complete the following)

- ✓ Attach the contractor's invoice or paid receipt (or loan program proposal).
- ✓ For air-source heat pumps and air conditioners: Attach the "Certificate of AHRI Certified Performance" provided by your contractor. This is a single-page form printed from the Air-Conditioning Heating and Refrigeration Institute (AHRI) Directory that shows equipment manufacturer, model number(s), size, all efficiency ratings and 7-digit AHRI reference number.
- ✓ For water source heat pumps: Have your contractor provide brand, model number and manufacturer's efficiency specifications on the invoice, receipt or proposal.
- ✓ What is the area cooled? (square feet)

Other Conditions and Requirements:

- Rebates are subject to approval and may change without notice. See website for full list of terms and conditions.
- Rebates are available only to City of Tallahassee electric customers who install qualifying equipment in a permanent residence receiving City electric service. Applications must be complete, include all required documentation, and be submitted within 90 days of the installation Final Inspection Date for existing homes. For new homes, applications must be submitted within 90 days of the Certificate of Occupancy date.
- Rebates cannot exceed the total installed cost of the equipment.
- A valid installation permit and completed (passed) final inspection are required.
- Air conditioning and heat pump rebates are available only for permitted and inspected installations of complete AHRI-matched systems with a valid AHRI Unique Reference Number.
- For existing homes, approved rebates for qualifying equipment completed after issuance of the Certificate of Occupancy will be issued as a credit to the home-owner's or utility customer's City utility account.
- For new homes, approved rebates for qualifying equipment installed prior to issuance of the Certificate of Occupancy will be paid to the homebuilder via ACH or check. Homebuilders must be registered as a City vendor before submitting an incentive application.
- The Peak Performance Homes Incentive cannot be combined with these AC and Heat Pump rebates. Applicants may apply for either the Peak Performance Homes Incentive, which includes select ENERGY STAR® appliance rebates, or individual à la carte rebates, but not both. Natural gas rebates are subject to separate eligibility requirements and must be applied for independently.

I hereby certify that the appliance(s) listed above is installed at the address listed and if requested, I will allow a representative of the City of Tallahassee Customer Operations to physically inspect the installation.
